About This Game

Hello puzzle solver! Fizzle Majestic Eagles is a unique expansion of the classic jigsaw puzzle style games. Instead of frustratingly trying to match oddly shaped pieces Fizzle Majestic Eagles uses squares but maintains the fun puzzle completion goals you would experience with a jigsaw puzzle. Puzzles are randomly created each play through with over 2,000 puzzle combinations for a new experience each play through. The squares on the left need to perfectly fit into the image on the right. You clear out the corresponding squares and merge the two images together. Puzzle difficulty increases as you advance through 50 levels of puzzle fun. You can also choose from 3 difficulty settings to limit the amount of time available to merge the images. If you enjoy solving puzzles then Fizzle Majestic Eagles is a sure thing for puzzle fun.

Features:

50 Levels

Unique Cubesaw Puzzle Style

Increasing Puzzle Difficulty

Multiple Difficulty Settings

Randomly Created Puzzles
